Using Fetal ECG (FECG)
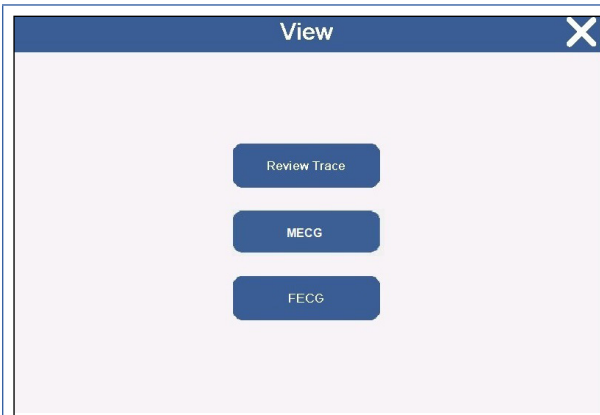

|	
View ✕ Review Trace MECG FECG	Touch the ☰ icon to access the View Menu settings. Select FECG.
← **Fetal ECG** ✕ [trace] Capture	The FECG screen displays a trace from the Fetal ECG that is plugged in. Example shown of an FECG screen trace displayed when it is searching for the fetal heart rate and has not yet established a connection.
← **Fetal ECG** ✕ [trace] Capture	Example shown of an FECG screen trace displayed when it has found the fetal heart rate and established a connection. Touch **Capture** to freeze the screen to view the trace. Touch **Run** to restart the trace.

Note
FECG, MECG sub menu buttons will only be displayed in Intrapartum models and only if probes are attached.
